Old people in Luwero District	34	Metting the locals leaderd Giving Old people mattresses

SECTION III; Key Learning

C. What were the key successes of this project?What challenges did you Face, if any?

Project Successes

- . Cementing our organization relationship with leaders, elderly People in the community
- . Improving the wellbeing of the elderly people which in the Long run will prevent backache
- . Distribution of mattresses to the old people was a sign of love and this gave joy on their faces
- . Community involvement embraced the care for the old People

Challenge

There was a big number of old people who needed the mattresses, but the funds were limited to accommodate them all.

D. Some of the selected photos from the project activities

we used different public means of Transport to reach to the target community. However, we're challenged by poor roads due to heavy rains.
